

A fan of four white paper samples is shown, fanned out from top to bottom. The samples are labeled from top to bottom: 'Dover White', 'Off White', 'Antique White', and 'Pure White'. A metal ring is attached to the bottom edge of the 'Pure White' sample. The samples are arranged in a fan shape, with the 'Pure White' sample at the bottom and the 'Dover White' sample at the top. The 'Off White' sample is the second from the top, and the 'Antique White' sample is the second from the bottom. The 'Pure White' sample is the largest and is at the bottom. The 'Dover White' sample is the smallest and is at the top. The 'Off White' sample is the second smallest and is the second from the top. The 'Antique White' sample is the second largest and is the second from the bottom. The metal ring is attached to the bottom edge of the 'Pure White' sample.

Pure White

Dover White

Off White

Antique White
