

## About Us

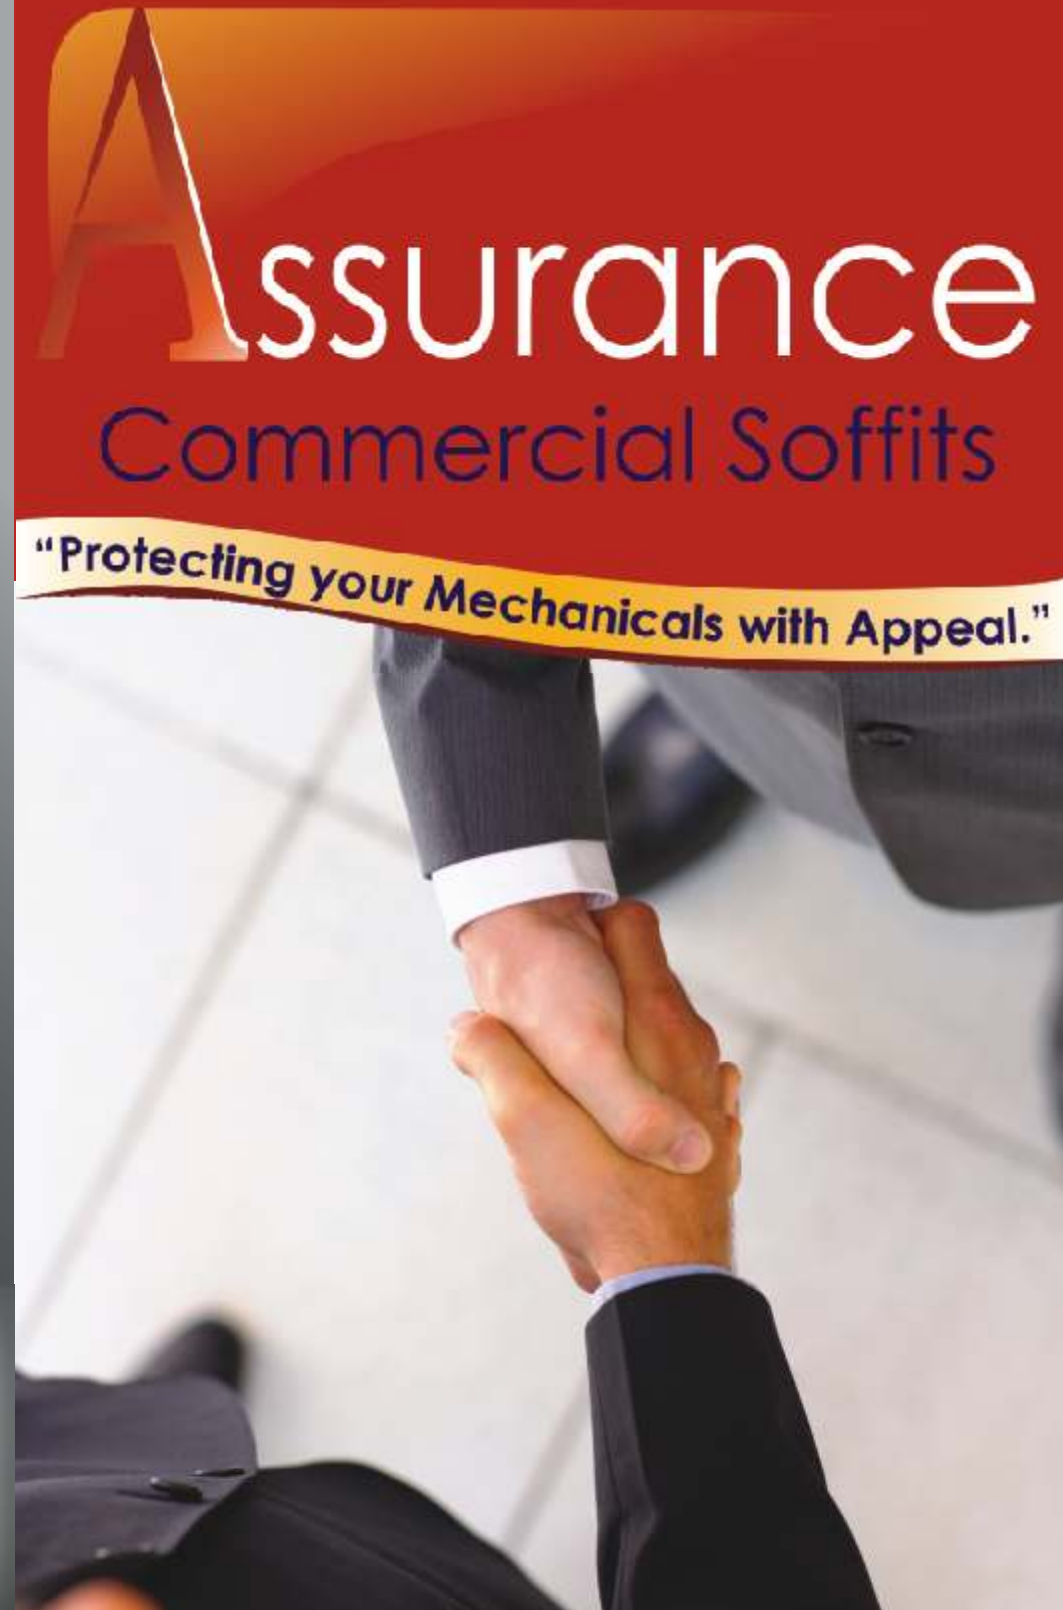

Here at JG Innovations Inc., we're real people with real solutions for your concealment needs. As a marketplace leader in the interior steel soffit products, we possess the expertise required to efficiently handle your unique piping and mechanical enclosure specifications. Beginning with free design aid and competitive budgetary quotes, JG Innovations delivers the commitment necessary to take your next project from conception to completion. Our clients can expect to receive the quality-fabricated and powder coated, interior soffit system required to get the job done right and on time.

Staffed with licensed, professional engineers and skilled tradesmen, JG Innovations is also a reliable partner you can trust for your speciality engineered fabrications. Provided with a copy of your shop drawings, we guarantee nothing less than precision craftsmanship in a timely manner. We are a detailed-oriented company equipped with the resources to handle even the most complex of architectural products. From column wrapping to escalator panels, JG Innovations' extensive experience with sheet metal and aluminum provides the solutions your job requires. Please contact our sales team toll-free at **1-888-933-2248** or email [sales@JGIUS.com](mailto:sales@JGIUS.com) for further information.

Choose JG Innovations as the fabrication source for your next project. We go to work for you....

As the saying goes, "You get what you pay for." Here at JG Innovations Inc., we believe in delivering the quality, effectiveness and durability we tout. Our 'Assurance' Commercial Soffits provide just that, offering you insurance that unattractive mechanicals will stay safely hidden.

Choosing our 'Assurance' Soffits guarantees that any combination of exposed Fire Sprinkler, Plumbing and Hydronic Piping, HVAC or electrical systems are covered, leaving your facility's mechanicals shielded from tampering and damages. Created intentionally to supply sleek yet solid protection, the 'Assurance' line promises classic design appeal at an exceptional value.

JG Innovations furnishes metal interior soffit systems in differing profiles to manage configurations as unique as each facility. Although custom options are available, our standard silhouettes include:

- L-Shield
- J-Shield
- U-Shield
- Bow-Shield
- Slope Top-Shield
- Soft Edge-Shield

'Assurance' Commercial Soffits promise the comfort of fortified appeal while allowing you to select the finish that best suits your needs. Available options such as PaintGrip (unfinished Zinc-Galvanneal dipped steel), primed and powder coated whites afford you the convenience of the exact product required. Have an application in a high-moisture area? Our 'Assurance' interior soffit systems are also offered in a reflective stainless steel.

We understand that 'one-size' typically doesn't fit all. We've eliminated this impracticality and added the convenience of offering 100% fabricated-to-order soffit systems. Relay the dimensions of the mechanical systems requiring shielding, and as simple as that, your own customized 'Assurance' Commercial Soffit system will arrive nationwide within 2-3 weeks! Choosing 'Assurance' Soffits conveniently guarantees your mechanicals are protected with tailored appeal.

Interested in how you can obtain the 'Assurance' that your facility's mechanicals will stay safely concealed? Email our sales department, [sales@JGIUS.com](mailto:sales@JGIUS.com), or call **1-888-933-2248** to learn more.
